PROFESSIONAL SUMMARY

Frontend-focused **Full Stack Developer** and Computer Science student with hands-on experience in **React.js**, **Next.js**, **Node.js**, **React Native**, **Flutter**, and **Python**. Contributed to production e-commerce features on **Shopify** and **BigCommerce**, including **Apple Pay integration**, **cart-session fixes**, **CDN/domain-verification troubleshooting**, and **Shopify theme development**. Builds responsive, performant web and mobile applications with clean component architecture. Interested in scalable web systems, AI-driven solutions, and system administration.

EXPERIENCE

Web Development Intern

Mar 2026 – May 2026

Superior eCommerce Ltd (via Iconic Studio / LAZURDE)

Greater London, UK (Remote)

- Implemented **Apple Pay** express checkout on a headless **BigCommerce** storefront using the **PaymentRequest API**; resolved domain-verification issues across **Cloudflare**-proxied subdomains.
- Diagnosed and fixed **cart-session bugs** and **token-mismatch errors** caused by **CDN caching conflicts**, improving checkout reliability.
- Learned and worked with **Shopify (theme development)** and collaborated with senior engineers on **Shopify-to-MuleSoft** middleware event flows; contributed to technical documentation.
- Took part in agile processes, code reviews, and cross-functional discussions with backend and infrastructure teams.

Full Stack Engineer / Frontend Developer

Jun 2026 – Jul 2026

CodeAlpha & Afynix Digital

Pakistan (Remote)

- Contributed to full-stack and frontend tasks across short-term engagements, applying **React.js** and **Node.js** in production-oriented workflows.

Independent Developer

Jan 2023 – Dec 2025

Self-Employed

Remote

- Designed and shipped multiple client-facing web projects (portfolio platforms, CMS-backed blogs, Shopify storefronts) with full responsiveness using **React** and **Next.js**.
- Built an AI-powered chatbot integrating the **OpenAI API** with real-time streamed responses in a **React** frontend.
- Applied Git-based workflows (branching, pull requests, semantic commits) across projects hosted on GitHub.

PROJECTS

L'AZURDE | lazurde.com

Next.js, BigCommerce (Headless), Cloudflare

- Worked on a multi-regional headless BigCommerce storefront serving **Egypt, KSA, and UAE** (English/Arabic) for the L'azurde jewelry brand.
- Delivered **Apple Pay checkout**, **Cloudflare/CDN cache fixes**, and **SEO redirect improvements** (uppercase-URL handling).

Perky Pear | perkypear.com

Shopify, Theme Development

- Worked on **Shopify theme development** for a live UK-based e-commerce brand (adhesive tape and shapewear).

Marly Dan

Shopify, Theme Development

- Worked on **Shopify theme development** and store customization for a live production store.

Personal Blog Platform

Next.js, Tailwind CSS, Sanity CMS

- Fully server-side-rendered blog with dynamic routing, **SEO metadata**, and headless **CMS** for non-technical editors.

Portfolio Website | AI Chatbot

React, Next.js, OpenAI API, Node.js

- Production-deployed portfolio with optimized **Lighthouse scores**; chatbot streams OpenAI Chat Completions into React with custom hooks and Context API.
